EDUCATION

JUNIOR SOFTWARE DEVELOPER

Nashville Software School | 2016 - 2017

JURIS DOCTORATE

Nashville School of Law | 2008 - 2012

ABOUT ME

I am a licensed attorney turned coder. I have always been a lover of technology and want to use my skills in software development to solve new challenges and add immediate value to a company with my professional experience and coding skills.

WORK EXPERIENCE

SOFTWARE ENGINEER - CONTRACTOR

Ingram Content Group | Jan 2018 - Sep 2018

- Joined a team working on a large, multi-million dollar integration project involving building an internal application using C#/.NET, SQL database and Angular 5 frontend
- Utilized skills learned at NSS to add immediate value to team on a tight schedule, worked throughout all layers of the application (data to UI)
- Agile, SCRUM methodology with sprint planning and daily standups
- Team environment
- BitBucket code reviews with Git version control
- VSCode and Visual Studio
- Built various APIs
- TDD
- Asynchronous programming
- Enterprise-level development

APPRENTICE SOFTWARE DEVELOPER

Nashville Software School | Jan 2016 - Jun 2017

- Intensive full-time software development bootcamp focusing on C#/.Net development fundamentals and problem solving. The final three months of the program being executed in a simulated company environment with SCRUM methodology.
- Daily hands on application of OOP fundamentals through group and individual projects
- Created single page applications in JavaScript in the AngularJS framework as well as HTML, CSS, Bootstrap, and Materialize
- Worked with jQuery for JavaScript libraries
- Deployed applications through Firebase
- Source code/version control with Git/GitHub
- Created RESTful API's with ASP.Net and Web API

ATTORNEY

State of Tennessee, Dept. of Commerce and Insurance, Special Counsel, Counsel On Call | Jan 2013 - Jan 2018

PROJECTS

STOKED!

Front-End Capstone | Dec 2016

Deployed here: capstone-stoked.firebaseio.com

Utilized Angular to build a CRUD app that allows user to login, search Google Places API to search for and save a ski resort to their profile using Firebase backend and get a 4-day weather report via a weather API call. Users can save and rate their favorite runs which correlate to each resort.

COMIC COLLECTION APP

Back-End Capstone | Jun 2017

Using C# with the ASP.NET and MVC 5 Framework built a back-end connected to Angular front-end that allows user to login, call Marvel Comics API and obtain/save data about their comic book collection. Full CRUD functionality.
